Applications  
Basic Auto CAD.

B.E Civil Engineer - Pune University - Pune,  
Maharashtra  
2017

A positive Degree journey from 2012-2017 that helped me to shape myself and allow me to discover who really, I am, in that phase of life I learnt about emotional intelligence and how well I can cope with the demands and pressures I'm faced with every day and I really wanted to jump into more challenging opportunities as soon as I join my job with all my technical and theoretical knowledge.

### PROJECTS

Passive Solar Rotating Building Project in the Role of Engineers in ICON SAI POWER PVT.LTD.(December January February 2017) under the Clients ACME SOLAR HOLDINGS PVT.LTD.

Description:- Being the team Engineer we casted a 2200 nos. Of pile in 2 months having diameter 300mm and a 1.9mtr depth casted which was proposed with solar panel. Enough surplus electricity was produced to power many electronic devices. Transformers are located between the rotating floors over the slab which we Casted to make safe supply and the solar panels.

Foundation and Footings of Wind power project in the Role of Engineers in ICON SAI POWERPVT.LTD. (March & April 2018) under the Clients of INOX WIND LIMITED.

Description:- Foundation was made by us in INOX WIND LIMITED Karnataka for the Transformer ACB & VCB With Connection of electric supply. Height of wind has a 114 meters which a 2MW energy IN a hour with their rotation. Foundation has a depth of 9 meter with diameter of 6meters it consumes 4000 no's of cement bags as we calculated practically. And this would result and play an important role in learning the TIME & LABOUR Management.
