The Ahmad Al-Jaber Oil & Gas Exhibition plays an important role for KOC by telling the history of oil, both in the State of Kuwait and throughout the world. From the formation of oil to its discovery and all of the ways that oil products help make our lives better. The exhibition serves to answer any questions the public may have about oil and gas and the important functions they play in our modern lives.

The original Display Center in Ahmadi has played a very important role in the history of Kuwait Oil Company. For decades, delegations from around the world were taken to the Display Center as part of their visit to KOC. In addition to being an excellent source of information for matters related to the oil industry, the original Display Center has been a source of great pride for the Company, for it is where the public could come to learn about the important role KOC plays for the State of Kuwait. Over the years,
